### Kaiser's Airplanes Arouse Curiosity of Londoners

A graphic account of the latest air raid of the Germans on London is given by a spectator. From what he says the residents of the city were so greatly interested in the flying machines that they forgot the mission of death upon which they had been sent. The account follows:

There has come to London the neareat vision of modern warfare it has
yet known. The Zeppelin raid which
swept over the city in the October
of 1915 came in the darkness and mystery of night. It was in the late
dusk of an autumn evening that Londoners watched the monsters of the
afr making death upon the innocent.
This time it was different. In the
gracious loveliness of a perfect summer's day, when the sky was bine
and gold and clear, enemy aeroplanes
journeyed through the clouds like little sliver birds, and their passage
was watched by thousands of men and
women who had but dimly seen the
Zeppelins of other days.

It happened that I boarded a bus
at Ludgate-circus at 11:40. It was
eastward bound. We had passed St.
Paul's Cathedral when there suddenly
came in swift succession several tremendous crashes, People on the bus
jumped as people will at unexpected
alarms. But there was no uneasiness.
"Our guns at it again," someone remarked. But the demeanor of the
people in the street suggested some
thing else. From every office and people in the street suggested some-thing else. From every office and warehouse and tea shop men and women had strangely rushed out. They stood still, gazing up into the air.

Amazing Drama of Skies.

### Nuxated Iron Makes Strong, Vigorous, Iron Men and Beautiful Healthy, Rosy-Cheeked Women

Dr. Howard James, late of the Manhattan State Hospital of New York and formerly Assistant Physician Brooklyn State Hospital, says:

"Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. A patient of mine remarked to me after having been on a six weeks' course of Nurated Iron), 'Say, Doctor, that there stuff is like magic.'

"If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tried. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained from my own experience with Nuxated Iron. I feel it is such a valuable rendey that it should be

All along this eastward journey bombs were falling and the guns were making great noises. But I saw no quick searching for shelter, no taking cover. And these ambulance cars darted out from all sorts of little side streets, joining together in one long stream that flowed eastward like a rapid. Special constables marched quickly about their business. Fire engines came from nowhere, as it seemed. Where, but a little while ago, there had been stillness in the streets and great noises in the air there was now quiet above and queer noises and movements below.

an hour. All these things had been done in 15 minutes that seemed like 60. When the time had come and gone people went back to their shops and their offices and their homes to carry on their normal way of living. They looked at their watches and thought they had stopped. When the regular lunch hour arrived they poured out into the streets once more, following the track of the raiders.

Good Samaritans. But it was not in a care-free spirit of adventure. They went in to see what war had done, and they went quietly and in order. Their hearts zorrowed for those to whom suffering had come. They wanted to help. "Is there anything I can do?" That was the spirit of the Lendoner
